

Eyes Wide Open

See the beauty in today

God is active in our lives. (Philippians 2:13)

He is here with us. (John 14:23)

He has prepared a way for us and planned blessings. (Jeremiah 29:11)

God is in the smallest of these blessed moments and most certainly wrapped in the large ones.

The way your children hugged each other this morning. The timing of a phone call from a friend, with the words you really needed to hear.

The quiet peacefulness of the rustling leaves in the trees as you sit in your backyard. The morning sunshine. The strength of the storm.

The positive, encouraging people in your life who help you grow – God has placed them there.

The helping hand of neighbor for nothing in return.

Have a sense of wonderment. Have a thankful spirit by seeing the world with wonder. Thankfulness for these moments and pieces of life bears the fruit of joy. With thankfulness and joy, there is peace to weather any storm.

We can live life with the knowledge that we are made with purpose, we are placed according to His plan, and praise Him with a joyful heart for His omnipresence.

There is not a detail of your life that He isn't aware of – talk to Him today and see Him.
